FUND YOUR VISION FOR THE FUTURE

SOCIAL JUSTICE

We fund nonprofits that acknowledge the systemic impact of racism and other forms of oppression that result in disparities in access to economic and social success. We prioritize acknowledging, identifying, and disrupting policies and practices that perpetuate poverty and inequality because we believe they are the root causes of injustice and must be addressed for real, lasting change.

A SUSTAINABLE FUTURE

All struggles are interconnected, as are the solutions to those struggles. Community Shares of Wisconsin member groups envision a future where we all have clean water and air, where all neighbors have access to family-supporting jobs, and all communities across Wisconsin are safe and thriving.

CIVIC ENGAGEMENT

Active community involvement increases visibility and promotes change. Our members work to give everyone an equal voice. All of our members have a seat on our board of directors and a voice in our decisions. There is strength in difference, and together we accomplish communitywide change.

Your support for Community Shares of Wisconsin funds systemic change.

FUNDING SYSTEMIC CHANGE

Community Shares of Wisconsin has funded systemic change for more than 50 years. The organization was established in 1971 by a coalition that included anti-war activists and UW students who raised bail money for protesters. Today, CSW supports nearly 70 nonprofit member organizations that work for social and environmental justice.

CSW takes a grassroots approach to fundraising and community building so charitable giving isn't just for the wealthy. By connecting with as many individual donors as possible, CSW democratizes philanthropy and helps everyone's contributions add up to make a big difference.

Community Shares of Wisconsin is committed to a future where people come together to ensure every member of our community is safe, healthy, and able to thrive. The collective efforts of individual donors are essential to achieve that goal. We invite you to join us with your donation today.
